

# Carla leads a We Ski II snowshoe hike to Mill Creek Falls, Lassen Park Sunday, 3 December 2006

From the South Entrance parking lot it's down the hill, over the bridge and through the snow. Ten intrepid We Ski II hikers embark on the 3.4 mile round trip in beautiful weather, breaking trail through a couple of feet of snow. The Falls forms where Bumpass Creek joins the East Fork of Sulphur Creek. None of the waterways is named Mill Creek. Go figure!
